

PRESIDENT'S MESSAGE

Please join me in prayer for all of our sick and shut-in and those experiencing death(s) or other tragedies in our neighborhood. You are not alone in this journey; we are here for you. Please contact immediately your block captain or Betty Forney, Benevolence Chairperson at (803) 500.6507 or baarabf@yahoo.com to report your situation.

Thanks to all who attended our last community meeting and celebrated our Social Activities Committee. As usual, the celebration was successful. Each member received a certificate and gift from Chairman Dr. Anthony Mack. The food was delicious. The fellowship with neighbors was so delightful. Thank you Dr. Mack and committee for always going the extra miles to make every occasion special. The red tablecloths added a special touch to the room. Thank you. During the meeting, the CAT Team reported several unlocked vehicles had items stolen. Please remove valuables and always lock your vehicles.

We need to see all of our neighbors at our meeting, March 26, 2020 at 5:30 pm at Newcastle-Trenholm Acres Community Center, 5819 Shakespeare Road. Sheriff Leon Lott will be our guest speaker. Want a safer neighborhood? Come show your support for safety and unity for Newcastle and Sheriff Department.

Speaking of "Unity", we want to show unity among our blocks and block captains. Make sure you meet your block captain at the March meeting. **We will have a little competition for attendance based upon percentage. A block with 8 households will have the same advantage as a block with 29.** Mr. James Rhett, Block Captain Coordinator is requesting each block captain to get an assistant to step in case of emergency or other unforeseen circumstances. Please report your assistant to Mr. Rhett.

April is Yard Beautification Month. Please take a good look at your property and begin planning for improvements, (rake the yard, plant new flowers or shrubbery, cut back over-grown trees and bushes, repair broken fences, etc.). Several neighbors suggested we do a "street sweep" of areas that are not being kept by anyone. More information coming soon. We want our neighborhood to reflect the lovely people who reside and take pride in our homes and yards.

Have a blessed and wonderful March 2020.

Mrs. Mary W. McCants
 NCCI President

SWEET AND SAVORY COLESLAW RECIPE

You have to try this simple recipe with complex flavors, including cranberries, crumbled bacon and a Coleslaw Kit with tangy dressing!

Ingredients:

1 package Fresh Express Coleslaw Kit

1/2 cup dried cranberries
1/2 cup cooked bacon, crumbled

Instructions:

Combine coleslaw with dressing and mix well.
Toss in dried cranberries and bacon.
Serve.

These women came up with new and innovative ideas well worth reading about.

In 1903, Mary Anderson was granted a patent for the windshield wiper. It would become standard equipment on cars by 1916. She isn't alone in her inventiveness. Women have also invented such things as industrial lathes, white out, bras, non-reflective glass, the dishwasher, disposable diapers, petroleum refining methods and much, much more.

Amelia Jenks Bloomer did not invent the bloomer, but she helped popularize this new article of clothing in the early 1850's, which now bears her name, that would help women be more active and free in their movement. Unfortunately, the style was much ridiculed and Bloomer had to revert to traditional dresses by 1859, but she remained an active member of suffrage movements throughout her life.

40s movie actress, Hedy Lamarr was not just a pretty face, she was also an inventor. Hoping to find a way to contribute to the war effort during World War II, Lamarr developed a radio-controlled torpedo device which used "frequency hopping" to prevent the signals from the torpedoes from being jammed. While the technology was not adopted for WWII, it was used in subsequent conflicts.

Susan Kare developed most of the interface elements for Apple Macintosh. You might not think that women have played a huge role in the development of computer technology, but in this case you would be wrong. Kare helped develop the bulk of those little icons early Mac users clicked on every day. Kare left Apple in the 80's, and is still working with innovating new technologies and improving design.

STAYING HEALTHY

FACTS ABOUT COLORECTAL CANCER

March is Colorectal Cancer Awareness Month

- Colorectal cancer is the number two cancer killer among men and women in the United States.
- More than 1,900 people will be diagnosed with colorectal cancer this year in South Carolina.
- Colorectal cancer is one of the most treatable forms of cancer when it is detected early.
- Screening for colorectal cancer saves lives by removing pre-cancerous growths before they become cancerous.

If you are 50 years or older, ask your doctor about being screened for colorectal cancer.
